Continuation of BAUMANN standard springs and circlips/viroles

Dear Sir/Madam,

We are pleased to inform you that BAUMANN Federn AG and Federnfabrik Schmid AG have concluded a partnership agreement which will enable the continuation of the BAUMANN standard spring business consisting of compression springs and circlips/viroles.

The BAUMANN standard spring business has been a recognized industry standard for many years representing top quality and reliability. Due to its versatility, it is used in a large number of applications. To meet the ongoing high demand and market requirements both now and in the future, Federnfabrik Schmid AG has taken over the business from BAUMANN Federn AG. The takeover includes the technical data, machines, tools and instructions as well as the wide-ranging stock of finished products to ensure continued rapid delivery.

This means that you can now purchase the entire range of BAUMANN standard springs from Federnfabrik Schmid AG in the usual high quality. There will be no changes to the prices and terms of delivery for customers and the same warranty conditions will continue to apply.

Detailed information will soon be available on the website of Federnfabrik Schmid AG. You can continue to use the usual order numbers from your catalogue when placing your orders. We will soon be sending you the familiar Baumann catalogue with the full range of products under the new name of Federnfabrik Schmid AG. Please send your inquiries and purchase orders to the following address:

Federnfabrik Schmid AG
Mr. Naveen Krishali
e-mail: naveen.krishali@schmid-federn.ch
Tel.: +41 44 929 6820
Fax: +41 44 929 6801

We are delighted that we have been able to secure the future of these important industrial products by entering into this partnership.

Yours faithfully,

Thomas H. Rüegg
CEO BAUMANN Group

Albert Enste
CEO Federnfabrik Schmid AG
